

NEW

eInstruction® Touchboard™ with AdjustIt Pro Stand, expected availability in early 2012.

LEARNING AT THE TIP OF YOUR FINGERS

eInstruction's new TouchBoard™ interactive whiteboard puts lessons in your students' hands. Students can work at the board with the TouchBoard's pen-and-finger system to solve problems, write sentences, or draw pictures with natural gesturing for a more engaging, interactive classroom experience.

When TouchBoard™ is combined with mobile interactive whiteboards you create an interactive, collaborative learning environment that is unsurpassed. With our award-winning Workspace™ software, you can assemble interactive lesson content controlled with TouchBoard™, Mobi View™, and Mobi™. Workspace's open architecture even allows you to incorporate and work with materials in multiple formats from any source, including ExamView® content and question banks, web-based content, and third-party curricula. Workspace™ eliminates worries about any importing or compatibility issues.

KEY FEATURES

- Durable dry-erase surface designed to withstand the rigors of a typical classroom.
- High-resolution touch technology provides accuracy in writing, diagramming, and lesson delivery.
- Affordable, so it fits your budgetary needs.
- Touch-enabled with windows, Mac OS, and Linux.
- Multi-touch enabled with Windows 7.
- Stationary or mobile with short throw and ultra-short throw options.

WORKS WITH

- Award-winning Workspace™ annotation software (included).
- The new AdjustIt Pro™ stand. Available in early 2012.
- Mobi™ family of mobile interactive whiteboards for student centered learning and teacher mobility.
